Sub: Regarding Non-availability of Printed Textbooks 2021-22 for different classes in Open Market & suggestion for using E-books

Dear Parents,

Welcome back to another great year of virtual schooling. The start of the new Academic Year is always a moment of great anticipation and excitement. A key responsibility of ours as School and Parents is to help our children embrace this moment and prepare them to get the most out of it as possible.

It is worth mentioned here that the supply of textbooks (2021-22) to the children through approved local bookseller was not possible due to the betrayal of trust by the selected bookseller who was awarded the work order to supply the books to the parents at subsidized rate.

International Indian School Jeddah has made all necessary preparations for the teachers to utilize the E-resources/E-books while conducting online classes from K to XII. Teachers have been directed to supply the pdf version of every lesson to the students so that they may not face any problem due to non-availability of printed books in the market.

Parents are requested to help their wards and encourage them to download NCERT digital books and other academic materials for class I to XII in different subjects using the following web links:

http://cbseacademic.nic.in/publication_sqps.html

<https://kvdrolibrary.wordpress.com/e-content-materials/>

<https://kvno2jaipur.wordpress.com/>

The school makes an appeal to those parents to bear for some time if they are not able to procure printed books for their wards from the market and advises them to use digital resources supplied by the subject teacher from time to time and also to use available resources on the school website on the following link and other web resources mentioned above.

<https://www.iisjed.org/copy-of-latest-updates-2>

It is expected that the textbooks for various grades, which are currently not available in the market, will be available with the local booksellers in a couple of days.

As was circulated earlier, the school is shortly going to implement LMS (Learning Management System) from K to XII, which will facilitate the students & teachers to use the academically rich digital contents for their academic upliftment and benefit and to minimize the dependency on printed books.

The IIS, Jeddah administration and management want to partner with you in helping to nurture and support your children in all academic endeavours.

Dr. Muzaffar Hassan
Principal
